

CIVIL AIR PATROL SAFETY RESPONSIBILITIES AND PROCEDURES

CAPR 62-1, 1 March 1991, is supplemented as follows

1f (added). All Central Iowa Composite Squadron members are responsible for conducting all Civil Air Patrol activities with the primary emphasis on safety and operational risk management (ORM).

2b(5) (added). All Central Iowa Composite Squadron members are responsible for reporting any unsafe condition or action through their chain of command to the Unit Safety Officer. All Central Iowa Composite Squadron members are to correct or eliminate unsafe conditions or actions immediately after they are observed to prevent potential accidents. The Unit Safety Officer shall notify the Commander of those situations where unsafe conditions or actions and subsequent corrections may have an effect on any other Iowa Wing units. This is so that he/she can report them to the Iowa Wing Commander and Iowa Wing Safety Officer.

DOUGLASS R. JANSEN, Captain, CAP
Commander
